

Description

ME904 is a solvent free, acrylic copolymer primer.

Colour

White on application, transparent after drying

Packaging

Item No.	Content
315615	1 L tin

Technical Information

Characteristic	Result
Material	Based on polyvinyl acetate - water based system (dispersion)
Drying Time	10 to 40 minutes (depending on porosity/relative humidity)
Consumption per Litre	Approximately 6-8 m ² (depending on surface)
Storage	Store in dry, protected conditions between +5°C and +30°C / Protect from frost
Shelf Life	12 months when stored as recommended in original, unopened containers

Application

- The surface should be dry, and free from dust and grease.
- Remove concrete and cement residues.
- If required, protect adjacent surfaces with masking tape.
- Apply evenly and carefully onto the surface using a brush.
- After use, ensure the tin is firmly closed.
- Adhesion and drying time is dependent on the weather.
- If unsure, carry out a preliminary adhesion test.

Cleaning

Splashes should be removed with water.

Health & Safety Precautions

Safety data sheet must be read and understood before use.

ME904

Adhesive Tape Primer

Usage / Purpose

ME904 is used for the pre-treatment of building substrates, e.g. cement particle board, masonry, timber, etc., when using illbruck building protection tapes, particularly for bonding to damp substrates.

Key Benefits

- Optimises adhesion
- Stabilisation of the surface
- Short drying time
- Solvent free
- Allows use of illbruck building protection tapes in damp conditions
